Foreign Trade and Payments Act of 6 June 2013 (Federal Law Gazette I p. 1482), as last amended by Article 1 of the Act of 23 May 2022 (Federal Law Gazette I p. 754)

Part 1

Legal transactions and actions

Section 1

Principles

(1) The trade in goods, services, capital, payment transactions and other types of trade with foreign territories, as well as the trade in foreign valuables and gold between residents (foreign trade and payments) is, in principle, not restricted. It is subject to the restrictions contained in this Act or prescribed by ordinances issued on the basis of this Act.

(2) This shall be without prejudice to

1. provisions in other acts and ordinances,
2. international agreements which the legislative bodies have approved in the form of a Federal act, and
3. legal provisions of the bodies of international organisations to which the Federal Republic of Germany has transferred sovereign rights.

Section 2

Definitions

(1) The definitions contained in subsections 2 to 25 shall apply to this Act and the ordinances issued on the basis of this Act, unless this Act or such an ordinance stipulates otherwise.

(2) An exporter shall mean any natural or legal person or partnership *with legal personality*¹ which holds the contract with the consignee in a third country at the time of the export and

1. has the power to determine the delivery of material goods from Germany to a third country or
2. in the case of software or technology has the power to determine its transmission from Germany to a third country, including its making available by electronic means to a third country.

If pursuant to the export contract a foreigner holds the right to dispose of the goods, the domestic contracting party shall be deemed to be the exporter. If no export contract was

concluded, or if the contracting party is not acting on its own behalf, the exporter shall be deemed to be the party which actually has the power to determine the export.

(3) An export shall mean

1. the delivery of material goods from Germany to a third country and
2. the transmission of software and technology from Germany to a third country including its making available by electronic means to natural and legal persons in third countries.

(4) Export consignment shall embrace the material goods which an exporter exports simultaneously via the same customs office at the point of exit to the same country of destination.

(5) Foreigners shall mean all persons and partnerships *with legal personality*¹ which are not residents.

(6) Foreign assets shall mean

1. assets abroad,
2. claims in euro against foreigners and
3. instruments of payment denominated in currencies other than the euro, claims and securities.

(7) Country of destination shall mean the country into which the goods are to be used or consumed, treated or processed, or if this country is not known, the last known country into which the goods are to be exported.

(8) Third countries shall mean the territories outside the customs territory of the European Union with the exception of Heligoland.

(9) Transit shall mean

1. the transportation of material goods from abroad through Germany without the goods entering free circulation in Germany, and
2. the transportation of material goods in free circulation from another Member State of the European Union through Germany.

(10) Importer shall mean any natural or legal person or partnership *with legal personality*¹ which

1. delivers material goods from third countries to Germany, or has them delivered, and has the power to determine the delivery of the material goods or
2. in the case of software or technology has the power to determine its transmission from third countries to Germany, including its making available by electronic means to Germany.

If the import is based on a contract with a non-EU party on the acquisition of goods for the purposes of import, only the domestic contracting party shall be the importer.

(11) Import shall mean

1. the delivery of material goods from third countries to Germany and
2. the transmission of software and technology including its making available by electronic means to natural and legal persons in Germany.

If material goods from third countries are transferred to a procedure of a free zone, of external transit, of a customs warehouse, of temporary importation or of inward processing, import shall take place only once the material goods

1. have been used, consumed, treated or processed in the free zone or
2. have been released for free circulation.

Sentence 2 shall not apply for material goods which are subject to import prohibitions on the basis of ordinances or enforceable orders issued under this Act.

(12) Country of purchase shall mean the country in which the non-EU party from which the EU resident acquires the goods is resident. This country shall continue to be deemed the country of purchase if the goods are sold on to another EU resident. If there is no legal transaction governing the acquisition of goods between an EU resident and a non-EU party, the country of purchase shall be deemed to be the country in which the person entitled to dispose of the goods is resident who imports the goods into the customs territory of the European Union. If the person entitled to dispose of the goods who imports the goods into the customs territory of the European Union is resident in the customs territory of the European Union, the country of origin shall be deemed to be the country of purchase.

(13) Goods shall mean material goods, software and technology. Technology shall also embrace documents for the manufacture of material goods or of parts of these material goods.

(14) A trafficking and brokering transaction shall mean

1. the brokering of a contract on the acquisition or release of goods,
2. the documentation of an opportunity to conclude such a contract or

(15) Residents shall mean

1. natural persons resident or habitually resident in Germany,

It also includes support provided orally, by telephone, and by electronic means.

(17) Transit trade shall mean any transaction in which residents acquire from foreigners and sell to foreigners material goods located abroad or delivered to Germany but not cleared for importation. Legal transactions in which these material goods are sold to other residents with a view to sale to foreigners shall be equivalent to transit trade.

(18) EU residents shall mean

1. natural persons resident or habitually resident in the European Union,
2. legal persons or partnerships *with legal personality*¹ legally established or headquartered in the European Union,
3. branches of legal persons based or headquartered in a third country if the management of the branches is in the European Union and separate accounts are kept for them, and

(19) Non-EU residents are all persons and partnerships which are not EU residents.

(20) Transferer shall mean any natural or legal person or partnership *with legal personality*¹ which has the power to determine the transfer of goods and at the time of transfer

2. in the case of subsection 21 no. 2 holds the contract with the consignee in Germany.

If pursuant to the transfer contract a foreigner has the benefit of a right to dispose of the goods, the domestic contracting party shall mean deemed to be the transferer. If no transfer contract was concluded, or if the contracting party is not acting on its own behalf, the transferer shall be deemed to be the party which actually has the power to determine the transfer.

(21) Transfer shall mean

1. the delivery of material goods or the transmission of software or technology from Germany to the remaining customs territory of the European Union including its provision by electronic means to natural and legal persons in the remaining customs territory of the European Union and

(22) Material goods shall mean movable objects which can be the subject of trade relations, and electricity. Securities and means of payment shall not be material goods.

(23) The value of a good shall mean the fee invoiced to the consignee or, in the absence of a consignee or a determinable fee, the statistical value within the meaning of the provisions on the statistics of cross-border trade in goods. If a legal transaction or an action forms part of a single overall economic process, the value of the overall process shall be used in the application of the value thresholds of this Act or of an ordinance based on this Act.

(24) Securities shall mean

1. securities within the meaning of Section 1 subsection 1 of the Securities Deposit Act,

(25) The customs territory of the European Union shall mean the customs territory of the Union pursuant to Article 4 of Regulation (EU) no 952/2013 of the European Parliament and of the Council laying down the Union Customs Code (OJ L 269 of 10 October 2013, p. 1; L 287 of 29 October 2013, p. 90; L 267 of 30 September 2016, p. 2), last amended by Regulation (EU) 2019/632 (OJ L 111 of 25 April 2019, p. 54), in the version applicable at the time. An ordinance can determine that the territory of Northern Ireland shall be deemed to be part of the customs territory of the European Union for certain provisions of this Act or ordinances issued on the basis of the Act.

Footnote 1: This amendment enters into force on 1 January 2024.

Section 3

Branches and permanent establishments

(1) Domestic branches and permanent establishments of foreigners and foreign branches and permanent establishments of residents shall be regarded as legally independent. Several domestic branches and permanent establishments of the same foreigners shall be regarded as one domestic branch or permanent establishment.

(2) Actions taken by or towards branches or permanent establishments within the meaning of subsection 1 shall be regarded as legal transactions to the extent that such actions would be legal transactions in relations between natural or legal persons or partnerships *with legal personality*¹.

(3) An ordinance issued on the basis of this Act or an enforceable order pursuant to Section 6 can provide that

1. several foreign branches and permanent establishments of the same resident shall be regarded as one foreigner in derogation from subsection 1 sentence 1,
2. domestic branches and permanent establishments of the same foreigner shall each be regarded as residents in derogation from subsection 1 sentence 2,
3. branches and permanent establishments shall not be regarded as foreigners or residents in derogation from Section 2 subsection 5 and 15 or
4. branches and permanent establishments shall not be regarded as EU residents or non-EU residents in derogation from Section 2 subsection 18 and 19.

Footnote 1: This amendment enters into force on 1 January 2024.

Section 4

Restrictions and obligations to act to protect public security and external interests

(1) In foreign trade and payments transactions, legal transactions and actions can be restricted and obligations to act can be imposed by ordinance, in order

1. to guarantee the essential security interests of the Federal Republic of Germany,
2. to prevent a disturbance of the peaceful coexistence of nations,
3. to prevent a substantial disturbance to the foreign relations of the Federal Republic of Germany,
4. to guarantee the public order or security of the Federal Republic of Germany or of another Member State of the European Union,
- 4a. to guarantee public order or security relating to projects or programmes of Union interest within the meaning of Article 8 of Regulation (EU) 2019/452 of the European Parliament and of the Council of 19 March 2019 establishing a framework for the screening of foreign direct investments into the Union (OJ L 79 I of 21 March 2019, p. 1) or
5. to counteract a danger to the coverage of vital needs in Germany or in parts of Germany and thereby to protect the health and life of human beings in accordance with Article 36 of the Treaty on the Functioning of the European Union.

(2) In foreign trade and payments transactions, legal transactions and actions can be restricted and obligations to act can also be imposed by ordinance, in order

1. to implement decisions of the Council of the European Union on economic sanctions in the field of Common Foreign and Security Policy,

2. to implement obligations of the Member States of the European Union which are provided for in directly applicable legal acts of the European Union to implement economic sanctions in the field of Common Foreign and Security Policy,
3. to implement UN Security Council resolutions or
4. to implement international agreements which the legislative bodies have approved in the form of a Federal act.

(3) The ordering of licensing requirements or of prohibitions shall be regarded as a restriction pursuant to subsections 1 and 2.

(4) Restrictions and obligations to act shall be limited in nature and scope to the extent necessary to achieve the objective stated in the authorisation. They shall be framed in a manner which intervenes as little as possible in the freedom of economic activity. Restrictions and obligations to act may affect existing contracts only if the objective stated in the authorisation is in serious jeopardy. They shall be revoked as soon as and insofar as the reasons warranting their imposition no longer apply.

Section 5

Subject of restrictions

(1) Restrictions or obligations to act pursuant to Section 4 subsection 1 can particularly be imposed on legal transactions or actions with reference to

1. weapons, ammunition and other military equipment and goods for the development, manufacture or deployment of weapons, ammunition and other military equipment; this shall particularly be the case if the restriction serves to implement export controls agreed in international co-operation,
2. goods which are destined for the conduct of military actions.

(2) Restrictions or obligations to act pursuant to Section 4 subsection 1 no. 4 can particularly be imposed with reference to the acquisition of domestic companies or shares in such companies by non-EU residents if the acquisition is likely to impair the public order or security of the Federal Republic of Germany or of another Member State of the European Union pursuant to Section 4 subsection 1 no. 4. In the case of Section 4 subsection 1 no. 4a, sentence 1 shall apply *mutatis mutandis*. Non-EU acquirers from the member states of the European Free Trade Association shall be equivalent to acquirers resident in the EU.

(3) Restrictions or obligations to act pursuant to Section 4 subsection 1 no. 1 can particularly be imposed with reference to the acquisition of domestic companies or shares in such companies by foreigners in order to guarantee essential security interests of the Federal Republic of Germany if the domestic companies

1. manufacture, develop, modify war weapons or other military equipment or possess actual control of such goods or have manufactured, developed, modified war weapons or other military equipment or possessed actual control of such goods in the past and still dispose of knowledge or other access to the technology on which such goods are based or
2. manufacture products with IT security functions to process classified state material or components essential to the IT security function of such products or have manufactured such products and still dispose of the underlying technology and the products have been licensed by the Federal Office for Information Security with the knowledge of the company.

Sentence 1 shall apply in particular if the security policy interests of the Federal Republic of Germany or the military security provisions are endangered as a result of the acquisition.

(4) Restrictions or obligations to act pursuant to Section 4 subsection 1 no. 5 can also be imposed with regard to goods not cited in subsection 1. For this to be the case, there must be an actual and sufficiently serious danger affecting a fundamental interest of society.

(5) Restrictions or obligations to act pursuant to Section 4 subsection 1 can also be imposed with regard to legal transactions or actions of Germans abroad which refer to goods within the meaning of subsection 1 including their development and manufacture.

Section 6

Individual intervention

(1) In foreign trade and payments transactions, legal transactions and actions can also be restricted or obligations to act can be imposed by administrative act in order to avert a danger pertaining in an individual case to the interests cited in Section 4 subsection 1, also in conjunction with subsection 2. In particular,

1. the ability to dispose of money and economic resources of certain persons or partnerships *with legal personality*¹ or
2. the provision of money and economic resources to the benefit of certain persons or partnerships *with legal personality*¹

can be restricted.

(1a) An administrative act pursuant to subsection 1 may be publicly disclosed. The public disclosure shall be effected by publication of the administrative act in the Federal Gazette. The administrative act shall take effect when this publication takes place.

(2) The order shall expire six months after its enactment unless the restriction or obligation to act is imposed by an ordinance. Sentence 1 shall not apply to an administrative act pursuant to subsection 1 sentence 2 to the extent that a different period of validity is determined by supplementary provisions.

(3) Section 4 subsections 3 and 4 and Section 5 subsection 5 shall apply *mutatis mutandis*.

Footnote 1: This amendment enters into force on 1 January 2024.

Section 7

Individual intervention in maritime transport beyond the German territorial sea

(1) In order to avert a danger existing in an individual case to the interests cited in Section 4 subsection 1 which is caused by the transportation of goods on board a maritime vessel bearing the Federal flag on the maritime side of the border of the German territorial sea, pursuant to Section 6 subsection 1 in particular necessary measures can be imposed to steer, accelerate and restrict the transportation of the goods and the handling and unloading of the goods.

(2) The measures pursuant to subsection 1 can be directed against the owner, the equipment supplier, the charterer, the master or the other possessor of actual control.

(3) The owner, the equipment supplier, the charterer, the master or the other possessor of actual control shall be obliged on demand to provide without delay details of

1. the nature and size of the load,
2. the route travelled since the last port and the intended route,
3. the expected duration of the passage and
4. the port of destination.

(4) The owner of a vessel operated in maritime shipping under a foreign flag which is entered into a German register of ships shall ensure that on demand the necessary details are transmitted without delay and to the same extent as is provided pursuant to subsection 3 for vessels under the Federal flag in order to avert a danger to the interests cited in Section 4 subsection 1.

(5) Section 4 subsections 3 and 4, Section 5 subsection 5 and Section 6 subsection 2 shall apply *mutatis mutandis*.

Section 8

Issuing of licences

- (1) If legal transactions or actions require a licence pursuant to a provision of this Act or an ordinance issued on the basis of this Act, the licence must be issued if it is to be expected that the undertaking of the legal transaction or action will not endanger the purpose of the provision or will do so only to a minor degree. In other cases, the licence can be issued if the national economic interest in the undertaking of the legal transaction or action will outweigh the related damage to the purpose cited in the authorisation.
- (2) The issuing of the licence can be made dependent on material and personal requirements, and particularly the reliability of the applicant. The same shall apply to the issuing of certificates by the Federal Office for Economic Affairs and Export Control (BAFA) stating that an export does not require a licence.
- (3) If the issuing of licences is possible only to a restricted degree in terms of the purpose served by the provision, the licences shall be issued in a manner enabling the given possibilities to be exploited in an appropriate economic manner.
- (4) EU residents which are particularly affected by a restriction pursuant to subsection 3 in the exercise of their trade can be given preferential consideration.
- (5) When applying for a licence pursuant to subsection 1 sentence 1 or a certificate pursuant to subsection 2 sentence 2, the applicant must provide or use full and correct data.

Section 9

Issuing of certificates

An ordinance issued on the basis of this Act can provide for the issuing of certificates to the extent necessary for certification pursuant to Article 9 of Directive 2009/43/EC of the European Parliament and of the Council of 6 May 2009 simplifying terms and conditions of transfers of defence-related products within the Community (OJ L 146 of 10 June 2009, p. 1). Section 8 subsection 5 shall apply *mutatis mutandis*.

Section 9a

Powers to trace money and economic assets

- (1) The competent authority can take the necessary measures to trace the money and economic assets located in the area of validity of this Act of certain persons or partnerships who are subject to a limitation of disposition under a directly applicable act of the European Communities or the European Union published in the Official Journal of the European Communities of the European Union which serves to implement an economic sanction adopted by the Council of the European Union in the field of Common Foreign and Security Policy.
- (2) In particular, the competent authority can
1. demand information and the presentation of documents from natural and legal persons, partnerships and authorities,
 2. summon and interview a person if facts justify the assumption that this person can provide relevant information for the tracing of money and economic assets within the meaning of subsection 1.
 3. freeze or seize documents and other objects which are suitable for the purpose of tracing money and economic assets within the meaning of subsection 1,
 4. enter business premises or production sites during normal business or operating hours if facts justify the assumption that these contain money or economic assets within the meaning of subsection 1 or indications of their whereabouts,
 5. search business premises or production sites and dwellings in accordance with subsection 4 if facts justify the assumption that these contain money or economic assets within the meaning of subsection 1 or indications of their whereabouts,

6. access the Real Property Register and other public registers and the register of flags maintained by the Federal Maritime and Hydrographic Agency and the register of aircraft maintained by the Federal Aviation Office and request information in accordance with Section 24c subsection 3 sentence 1 number 4 of the Banking Act.

(3) In order to prevent an urgent danger to public security or order, in particular when there is a fear that controls will be circumvented, measures under subsection 2 number 4 may also be carried out outside business hours and in rooms serving residential purposes.

(4) Except in case of exigent circumstances, searches of dwellings and business premises and production sites may only be ordered by the judge. The competent court is the local court in whose district the search is to take place. The procedure is correspondingly subject to the provisions of the Act on Proceedings in Family Matters and in Matters of Non-contentious Jurisdiction. The possessor of the dwelling or the business premises or production site has the right to be present during the search. If he or she is absent, a representative or an adult relative, housemate or neighbour should if possible be present. The possessor or his or her representative must be informed of the reason for the search without delay to the extent that this does not jeopardise the purpose of the measure. A written record must be made of the search. It must name the responsible agency, the reason, time and place of the search. The written record must be signed by an official carrying out the search and the possessor or the person present in his or her place. If a person refuses to sign the record, a note must be made of this. On demand, the possessor or his or her representative must be handed a copy of the record. If the making of the record or the handing over of a copy is not possible due to the special circumstances of the case, or if it would jeopardise the purpose of the search, only confirmation that the search has taken place, citing the responsible agency and the time and place of the search, is to be given in writing to the possessor or the person present in his or her place.

(5) Subsection 2 number 5 and subsection 3 restrict the fundamental right to the inviolability of the home (Article 13 paragraph 1 of the Basic Law).

Section 9b

Measures to freeze money and economic assets

(1) The competent authority can order the freezing in order to prevent money or economic assets of certain persons or partnerships who are subject to a limitation of disposition under a directly applicable act of the European Communities or the European Union published in the Official Journal of the European Communities or the European Union which serves to implement an economic sanction adopted by the Council of the European Union in the field of Common Foreign and Security Policy from being disposed of in violation of such an act or used contrary to such an act. The order must be revoked without delay as soon as the preconditions under sentence 1 no longer apply.

(2) If facts justify the assumption that money or economic assets of certain persons or partnerships are subject to a limitation of disposition under a directly applicable act of the European Communities or the European Union published in the Official Journal of the European Communities or the European Union which serves to implement an economic sanction adopted by the Council of the European Union in the field of Common Foreign and Security Policy, the competent authority can provisionally order the freezing until the tracing under Section 9a is completed, but at most for the period of six months. The provisional order must be revoked without delay as soon as the existence of a limitation of disposition has been finally examined. If the examination shows that a limitation of disposition exists, an order under subsection 1 sentence 1 must be examined.

(3) As soon as the freezing is revoked, the money or economic assets must be issued to the person from whom they were frozen. If it is not possible to issue them to that person, they can be issued to any other person who credibly asserts his or her entitlement. The issuance is not possible if it would result in the preconditions for freezing applying again.

Section 9c **Modalities of freezing**

(1) Money or economic assets frozen under Section 9b subsection 1 or 2 must be impounded. If the nature of the physical items does not permit this, or if impounding at the competent authority does not appear appropriate, the physical items must be held or secured in another appropriate way, to the extent that the measures ordered under Section 9b appear insufficient. In the cases of sentence 2, a suitable third party can be commissioned to impound [the physical items]. For receivables and other rights to assets, the provisions of the Code of Civil Procedure on enforcement regarding receivables and other property rights apply accordingly.

(2) A written record must be made of the freezing of physical items. The owner or the possessor of actual power [over the physical item] must be informed without delay about the provisional freezing of the physical item. This does not apply if the provision of this information could jeopardise the purpose of the measure.

(3) If a frozen physical item is impounded, any reductions in value must be prevented where possible.

(4) The impounded physical items must be registered and marked in such a way that there can be no confusion about their identity.

(5) The sale of a physical item frozen under Section 9b subsection 1 is admissible if

1. there is a risk that it will decay or there will be another significant decline in value,
2. its impounding, care or maintenance entails disproportionately great effort,
3. due to its nature it cannot be impounded in a manner that excludes further dangers to public security or order,
4. it cannot be issued to an entitled party without the preconditions for the freezing applying again,
5. the entitled party does not collect it within an adequate deadline even though that party has been informed about the deadline with the information that the physical item will be sold if it is not collected within the deadline.

This is without prejudice to other statutory provisions which prevent the sale.

(6) The affected person, the owner and persons with a right to the physical item must be heard prior to the sale. They must be informed of the order and of the time and place of the sale to the extent that the circumstances and the purpose of the measures permit this.

(7) The physical item is sold by public auction; Section 979 subsection 1 of the Civil Code applies accordingly. If the auction fails, appears futile from the outset or if the costs of auctioning the physical item would probably exceed the expected revenue, the physical item can be sold directly. The proceeds take the place of the sold physical item. If no buyer is found within an appropriate period, the physical item can be given to a charitable purpose.

(8) Frozen physical items can be rendered unusable, destroyed or confiscated if

1. in the case of a sale the reasons justifying the freezing remain in place or the reasons for freezing would arise afresh,
2. the sale is not possible for other reasons.

This is without prejudice to other statutory provisions which prevent a sale.

Section 9d **Processing of personal data in the tracing and freezing of money and economic assets**

The competent authority may process personal data to the extent that this is necessary for it to fulfil its tasks under Sections 9a and 9b. It receives the information necessary to fulfil its

tasks from other authorities to the extent that this is not prevented by statutory confidentiality obligations. Section 25 of the Federal Data Protection Act applies to the transmission of personal data. The personal data which have been collected must be deleted at the latest following the end of six months after the removal of a limitation of disposition.

Part 2 Supplementary provisions

Section 10 Deutsche Bundesbank

Restrictions pursuant to a provision of this Act or an ordinance or enforceable order issued on the basis of this Act shall not apply to legal transactions and actions which the Deutsche Bundesbank undertakes in its sphere of business or which are undertaken towards it.

Section 11 Procedural and reporting provisions

(1) Procedural provisions can be enacted by ordinance

1. to implement this Act and ordinances issued on the basis of this Act,
2. to examine the lawfulness of legal transactions or actions in foreign trade and payments transactions and
3. to implement
 - a) the provisions of the European treaties, including the related protocols,
 - b) the agreements of the European Union and
 - c) the legal acts of the European Union based on the treaties and agreements cited in letters a and b.

(2) It is possible to issue an ordinance requiring that legal transactions and actions in foreign trade and payments transactions, and particularly claims and obligations and assets arising therefrom and the making and receiving of payments are reported, citing the legal basis for this, so that

1. it can be ascertained whether the preconditions for the lifting, relaxation or imposition of restrictions pertain,
2. the balance of payments of the Federal Republic of Germany can be drawn up at any time,
3. the safeguarding of the interests of foreign trade and payments policy is ensured or
4. obligations from international agreements or international export control regimes can be fulfilled.

(3) In order to safeguard the intentions of subsection 2 nos. 1 to 4, it is possible to issue an ordinance requiring that the status and selected items of the composition of assets of residents abroad and of foreigners in Germany are reported. If the assets to be reported include a direct or indirect stake in a company, it can be required that the status and selected items of the composition of the assets of the company in which the stake is held are reported.

(4) It is also possible to issue an ordinance requiring obligations to document and preserve data in order to enable examination pursuant to subsection 1 no. 2 or to fulfil reporting requirements pursuant to subsections 2 and 3.

(5) Sections 9, 15 and 16 of the Federal Statistics Act shall be applied *mutatis mutandis* in the cases of subsections 2 and 3.

Section 12

Issuing of ordinances

- (1) Ordinances pursuant to this Act shall be issued by the Federal Government. In derogation from sentence 1, ordinances pursuant to Section 4 subsection 2 and Section 30 subsection 2 shall be issued by the Federal Ministry for Economic Affairs and Energy, in the case of Section 4 subsection 2 in agreement with the Federal Foreign Office and the Federal Ministry of Finance.
- (2) The ordinances shall not require the approval of the Bundesrat.
- (3) In the case of provisions affecting capital and payment transactions or trade in foreign valuables and gold, consultation shall be made with the Deutsche Bundesbank.
- (4) The Bundestag and Bundesrat shall be informed of ordinances immediately following their promulgation. The Bundesrat can make comments to the Bundestag within four weeks. The ordinances must be revoked without delay to the extent that the Bundestag requires this within four months of their promulgation.
- (5) Subsection 4 shall not be applied to ordinances whereby the Federal Government or the Federal Ministry for Economic Affairs and Energy has imposed or revoked restrictions on movements of goods, capital or payments with other countries pursuant to Section 4 subsection 2, and to ordinances in accordance with Section 30 subsection 2.

Section 13

Responsibilities for the issuing of administrative acts and for the receipt of reports

- (1) The Federal Office for Economic Affairs and Export Control (BAFA) shall be responsible for the issuing of administrative acts and the receipt of reports on the basis of this Act and of ordinances issued on the basis of this Act and of acts of the Council or the Commission of the European Union in the field of foreign trade and payments law to the extent that other acts, this Act or an ordinance issued on the basis of this Act does not provide otherwise.
- (2) The following authorities shall have exclusive responsibility:
1. the Deutsche Bundesbank in the field of movements of capital and payments and the movement of foreign assets, including money which is subject to a limitation of disposition, and gold unless prescribed otherwise below,
 2. the Federal Ministry for Economic Affairs and Energy
